Mission Statement

River Gate High School is a student-centered organization delivering excellence in education. Our team is committed to our students, our communities, and each other. We believe that our cohesion and morale help us to achieve excellence in our school. Our commitment to our students and our dedication to impacting their education through innovative methods makes us unique.

- At River Gate High School, we believe the following:
- Every student deserves an environment that enables them to achieve to their potential.
 - We respect our work and each other.
 - We use data to inform our decisions and measure our success.

This mission will be served by providing the school’s students with an individualized and self-paced program set in a flexible scheduling environment that is responsive to its students’ needs, and by providing an education experience that leads to a high school diploma (not a GED) and post-secondary success. River Gate High School will provide a comprehensive, positive educational experience that will impart to each student the knowledge, desire and confidence needed to succeed in reaching his/her goals. The school will strive to motivate, teach, and guide each student through his/her educational growth and development. This will be accomplished by emphasizing the development of both cognitive and social skills. River Gate High School offers a safe, secure, clean environment, and researched field-tested educational programs which have proven very successful in educating at-risk students. The program provides the opportunity for parent involvement and community engagement.

Sponsor Statement

St. Aloysius, as the sponsor of this school, is legally mandated to provide oversight, monitoring, and technical assistance. As part of the monitoring process, the performance of the school is assessed and evaluated on each of the required Ohio School Report Card components. Additionally, St. Aloysius has a regular presence at school board meetings where student performance indicators such as attendance, behavior, and academic achievement are tracked and financial and organizational issues that impact student success are reviewed and discussed. Key to the oversight, monitoring, and technical assistance is St. Aloysius’ review of the school’s Ohio Improvement Process (OIP) plan development and implementation. As a result of our thorough oversight and monitoring, St. Aloysius has determined that this school is substantially compliant with the rules and regulations governing community schools.

All community school sponsors are required to submit a written report of the evaluation results of the school’s academic, financial, and organizational performance, as well as the school’s legal compliance with Ohio Revised Code, Ohio Administrative Code, and to the terms of the Community School contract. This report must be made available to parents of students enrolled in the community school by November 30th of each year under OAC 3301-102-05 (A) (3). An Annual Report regarding the performance of this school and other schools under the sponsorship of St. Aloysius will be posted on our website at www.stalschildren.org/charterschools and www.charterschoolspec.com no later than November 30, 2022. Parents are urged to review this report, in addition to other monitoring and evaluation reports available through the school or the sponsor for a full understanding of the school’s performance.

Vision Statement

- We believe:
- Everyone deserves a second chance at receiving a first-class education and being successful in life.
 - Everyone deserves a chance to become all he/she can be.
 - Everyone learns at different rates and students should have educational choices that provide for each student’s individual needs and learning pace.
 - Flexible scheduling of school hours is a great advantage for those young adults that want to avail themselves of educational opportunities but who may have special life challenges and circumstances that prevent them from attending a traditional eight-hour school day, or during a specific timeframe. Examples of these life challenges include being student-parents and/or working to support oneself or one’s family.
 - A high school diploma will not only benefit those young adults that take advantage of the opportunities it offers, but through the rippling effect that the graduate him/herself will have over time, it will also benefit the community as a whole.
 - No one educational organization or philosophy is right for everyone.
